# VARIATIONS FOR ADDITIONAL LEARNING

1. Start with the Capital letters boards and play a straightforward game of BINGO, asking the kids to get 5 in a row. Have them trade boards in between games.
2. When they're ready, switch them to lower case letters or a mix of upper and lower case letters to practice those too
3. Switch it up by letting the kids be the caller
4. For extra letter practice, have kids write the upper case version of the letter in the box when they find the lower case letter on their board.
5. Instead of calling out the letter name, say a word that starts with that letter and have them identify the first letter sound and then find it on their BINGO board. They can do this quietly to themselves, or you can call on someone to say the name of the first letter.
6. For even older kids, call out the letter, but ask them to write a word that starts with that letter in the box. In order to win they need 5 words that correctly start with the letter shown.
