

# SUDOKU FOR ALL AGES

4X4, 6X6, AND 9X9 PUZZLES

# 151 SUDOKU PUZZLES

Sudoku puzzles are fun games that also offer great learning opportunities. For kids as young as 4, the easiest puzzles will help them with number recognition and give them big boxes where they can practice writing their numbers.

Kids will learn about process of elimination and will start using simple algorithms similar to basic computer programming techniques. As they move to harder puzzles, they'll need to extrapolate what they've learned to apply to the more advanced puzzles. They'll use problem solving skills while practicing memorization, concentration, and perseverance.

Parents and teachers can use these during downtime in the classroom, on trips, waiting at a restaurant or for an appointment, or anyplace you want to keep kids entertained and learning
