BASEBALL BINGO

30 BINGO BOARDS + 154 CALLING CARDS

BASEBALL BINGO

Baseball Bingo is a great way to help kids learn through play. It's fun, it helps with spelling and sportsmanship, and it might reach some kids who love sports or who don't learn as well from more traditional worksheets.

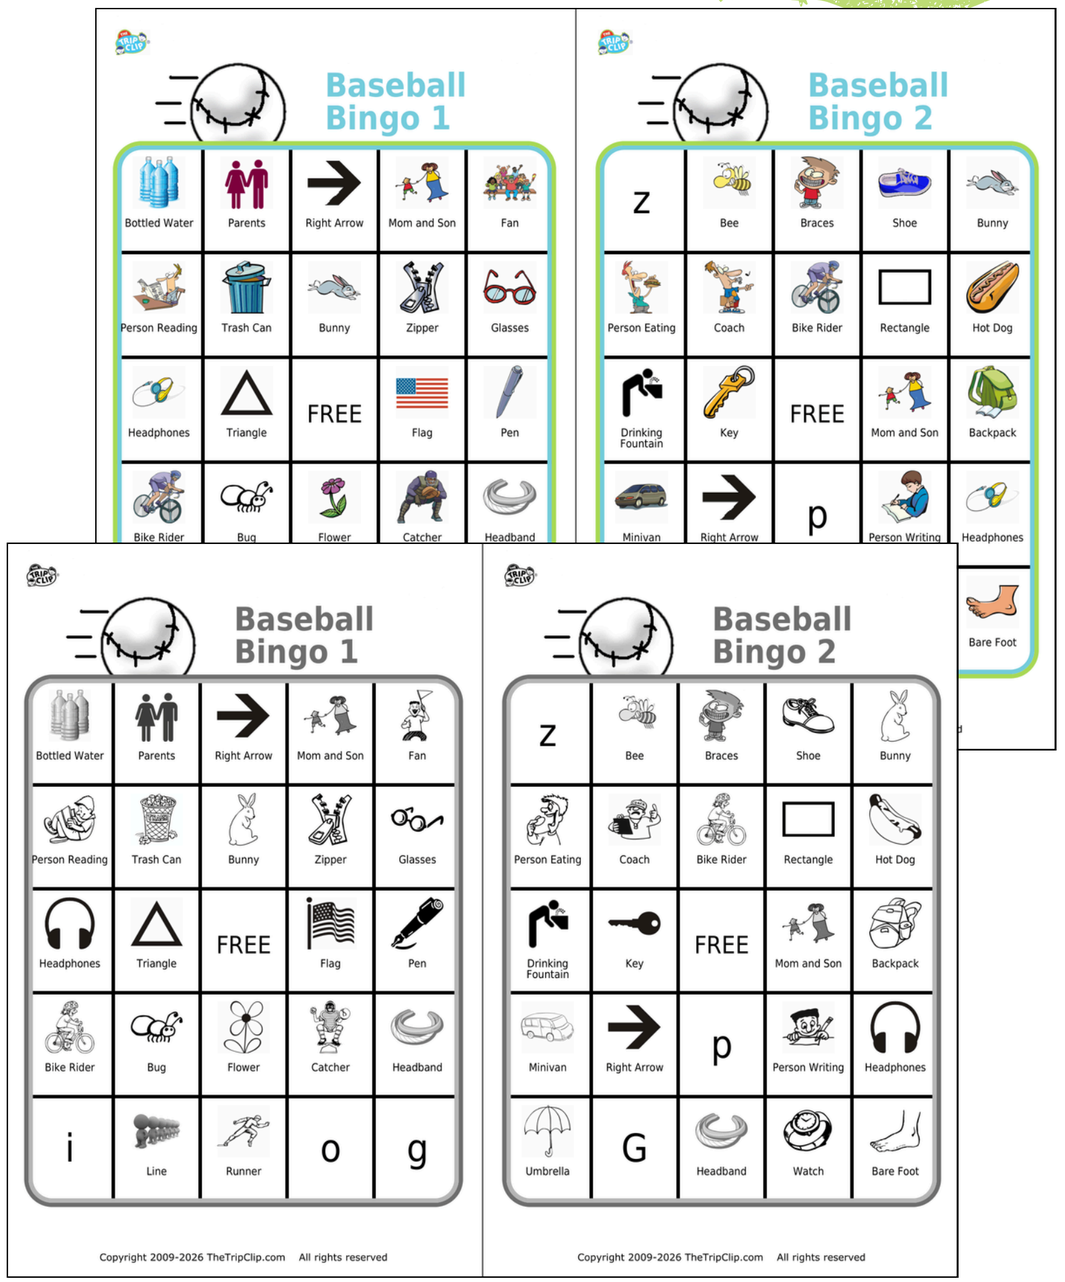

You can print these each time you need them or laminate them to re-use them.

Use them as a full class activity, in centers, or while watching a game!

LEARNING OPPORTUNITIES

1. **Letter & Number recognition:** All of the boards contain individual letters and numbers to help kids learn to recognize them
2. **Spelling:** Any time kids interact with a picture and the word underneath it, it will help them internalize the correct spelling of the word. You can increase this learning by having kids spell the words out loud, or, when a single letter is called, have them come up with a word that starts with that letter.
3. **Sportsmanship/Working Together:** Any time kids play games together they will work on their sportsmanship. You can increase this learning by having kids take turns calling out the items on the calling cards or by having them play independently in small groups.
4. **Homework/Extra credit:** Hand out the bingo boards for kids to take home. They can mark off each item they see at home or when they're out with their family.
5. **Customize:** Use The Trip Clip website to customize these boards. You might want to include only capital letters or single digit numbers. You could also include only words that start with a certain letters, or include only words that have letter combinations that are in that week's spelling lesson.
