

Going To the Doctor

-  Wait in the waiting room
-  A nurse with a clipboard will call your name
-  She will take your temperature
-  Wait quietly
-  The doctor will come in
-  The doctor will listen to your heart and lungs
-  The doctor will look inside your mouth
-  The doctor will look inside your ears
-  The doctor will talk to your parents

-  The nurse will come back to give you a shot
-  You'll get a bandaid
-  You're all done, you can say goodbye!
-  Time for a treat!
