Holiday Scavenger Hunt Rules

Setup

Designate one person (an adult) to run the game and be the judge. This person won't play the game.

Divide everyone into teams of 2, pairing people who aren't in the same household.

Make sure every participant has their own mobile device that will allow them to chat, take pictures, and send pictures (by phone, text, Face Time, Discord, or any other app they like).

Make sure team members have each other's phone number or contact information.

The judge will also need contact information for every participant. You can collect these ahead of time, or share them all over a Zoom call before the game begins. Personally, I recommend having a Zoom meeting before the game begins to explain all the rules, exchange contact information, and ensure everyone is ready at the same time!

The judge will have the link to the list of items everyone needs to find. You can use this one for free, or you can get an account on The Trip Clip website to create your own list*. You should try to keep the list hidden from the participants, though, until it's time to start playing!

The Judge should have multiple copies of the scavenger hunt printed out and ready to record when teams have found an item.

When all the players are ready, the judge will email or text the link to the list to every participant at the same time. Participants can print it out or use it interactively from their mobile device.

*With an account on The Trip Clip website you can edit this list to customize it for your family. If you have trouble coming up with ideas you like, use the Bingo Board activity to refresh a Custom Bingo Board with random pictures, and then put those pictures on your Scavenger hunt list. Your family members can get creative to find something to match the picture, whatever it may be!

How to Play

When the players receive the list of items, each team should make a plan for finding the items on their list between their two households.

When a player finds an item, they should tell their partner so they don't duplicate work. If they're unsure whether or not an item they've found will count, they can talk to their partner to ask for advice. Once they've agreed an item meets the requirements, they should take a selfie with the item and text the selfie to the judge.

How To Win

The first team to prove to the judge that they have found every item on the list wins!

Alternatively, you can have a time limit, and the team that has found the most things within the time limit wins.

A prize for the winning team is optional :)
